ABOUT ME

I would introduce myself in six words.

Passionate coder, responsible, best colleague ever. That pretty much sums it up, though at least the last one my former colleagues have to confirm. I try to **do a good job in all roles I have in life**, and I enjoy the process immensely. Do you want me to talk about my coding skills and experience now, or will we discuss it later in the interview?

COMPETENCIES

- Python
- SQL
- Google Cloud
- Airflow
- JavaScript
- Data Analytics
- Cyber security
- Jenkins
